

PDA Testing mentoring

Foundation QA has an international reputation in the field of dynamic pile testing, and provides a variety of training opportunities to practitioners around the world in the field of dynamic pile testing and analysis.

Foundation QA also offers one-on-one mentoring services to PDA testing companies wishing to raise their skill levels, or to provide internal or external review of their testing services.

Foundation QA utilizes the many internet-based communication services offered by the internet to provide real-time assistance such as VoIP calls, web conferencing, remote desktop and real-time remote control of PDA's to assist its mentor partners.

Please contact Dr. Julian Seidel for any further information.
